CONNECT WITH A LICENSED MEDICAL PROVIDER, PSYCHIATRIST OR THERAPIST ON YOUR SCHEDULE.

Individuals who use primary care are more likely to be engaged in their health, attend routine checkups, identify health issues earlier and more effectively, and better manage chronic conditions.

96% of issues for which patients traditionally turn to an urgent care facility for a primary care office visit can be diagnosed and treated from beginning to end virtually.

MeMD provides remarkable and streamlined primary care. Members get the primary care services they need virtually, helping them avoid costly in-person visits.
